[F.r.e.e] Snmp: Versions 1 & 2 Simple Network Management Protocol Theory and Practice by by Mathias Hein

Simple network management protocol (SNMP) has been chosen by the Internet Activities Board as the short-term solution for managing TCP/IP based components in the Internet. It is currently the major protocol used to communicate information between network management stations and management agents. This complete guide to the latest SNMP version 2 protocol provides comprehensive coverage of all aspects of the system, including its development and operational features.
